Dear Reader,

We would like to bring to your attention to the fact that the figures and information provided in the draft financial statements for 2023/24 are subject to potential changes. This is due to the ongoing process of finalising the audit for the two preceding years' accounts (2021/22 & 2022/23). We ask that you kindly read the draft statements with this in mind, understanding that revisions may be necessary once the audit is completed.

Thank you for your understanding.
