**REQUEST UNDER THE FREEDOM OF INFORMATION ACT 2000 Ref No: FOI2018/05489**

I write in connection with your request for information received on 28th September. I note you seek access to the following information:

**I would like to request a list of all the cases where a university student has died by drowning in a river over the last 5 years.**

**Please could this information be broken down by month, and include the name of the river and the university the student attended**

I am required by the Freedom of Information Act 2000 (The Act) to handle all requests in a manner that is blind to the identity of the requestor. Any information released in response to a request is regarded as being published and therefore, in the public domain without caveat.

Following enquiries within the Constabulary please see our response below.

**Response** – Hertfordshire Constabulary do not routinely record details of individuals who have drowned.

The Coroner Service holds investigations or inquests into unexpected, unnatural or suspicious deaths. It is the Coroners service who would make reference to the fact a victim could have drowned.

Accordingly I have determined that the information you have requested is not recorded by Hertfordshire Constabulary.

The numerical data presented in this response is an un-audited snapshot of un-published data sourced from "live" systems and is subject to the interpretation of the original request by the individual extracting the data.

Should you have any further enquiries concerning this matter please do not hesitate to contact me quoting the above reference number.

Yours sincerely
